#### Service Description

Fibre to the Home (FTTH) is a broadband service that is delivered using fibre optic that has been installed directly to the network boundary point of individual premises. TPG FTTH XL Bundle includes the following components:

- Unlimited FTTH Broadband
- Voice Service (no included calls – calls charged at ‘Pay As You Go’ rates only)
  - Unlimited Local Calls (excl. 13/1300 calls)
  - Unlimited Standard National Calls to Landlines
  - Unlimited calls to Standard Australian Mobiles
  - Unlimited calls to Landline & Mobile numbers in 15 destinations: Canada, China, France, Germany, Greece, Hong Kong, India, South Korea, Malaysia, New Zealand, Singapore, Taiwan, Thailand, United Kingdom, and United States.

The service is a pre-paid service and bills are not issued. A monthly invoice will be generated for your records that can be accessed by logging into Your Account online at [My Account](#).

#### Prepaid Balance (or Prepayment)

Calls Outside the Included Value made using the FTTH XL Bundle service will be charged on a ‘Pay As You Go’ basis and deducted from your Prepayment.

#### Minimum Term

FTTH Bundle plans are supplied on a no lock-in contract. Customers are permitted to terminate the service by giving 30 days notice. See Minimum Total Cost applicable in the Information about Pricing section.

#### Availability

Only available in selected buildings. To check for availability, please use the [address checker](#)

### Bundling Arrangements

Once an FTTH Bundle is purchased, you cannot cancel either component (FTTH or Voice Service). Cancellation will cease both services.

### FTTH Speeds

Typical evening download speed is measured between 7pm and 11pm. Typical evening upload speed is estimated by reference to the maximum upload speed for the plan. Actual throughput speeds may be slower and could vary due to various factors including interference, download source, customer cabling and equipment.

### Equipment Required

You need an FTTH compatible modem to connect your devices to TPG FTTH Broadband service. A compatible 4 Port Wi-Fi Modem Router is included in FTTH Bundle plans. \$10 Delivery fee applies, as outlined in the Pricing table above. You will need to supply your own standard compatible phone handset to use your included voice service.

### \*Prepayment For Previous Service

If you are changing plans or moving home and your existing phone number can be transferred to your new TPG FTTH service, we will transfer across any amount you have prepaid on your previous service and you will not be charged a \$20 Prepayment upon sign up. If you are unable to keep your existing phone number and must receive a new phone number with your new TPG FTTH service, you will be charged a \$20 Prepayment upon sign up and any prepayments on your previous service will be credited.

### Inclusions & Exclusions

**Included Calls:** FTTH XL Bundle allows you to make unlimited calls to Landline and Mobile numbers in 15 countries (Canada, China, France, Germany, Greece, Hong Kong, India, Korea (South), Malaysia, New Zealand, Singapore, Taiwan, Thailand, United Kingdom, United States), unlimited Local Calls (excluding 13/1300 numbers), unlimited Standard National Calls to Landlines and unlimited calls to Standard Australian Mobiles. Calls to 19/1900 numbers are not supported. Standard per minute rates listed on our [International Call Rates](#) page apply for International Calls to other countries and calls to satellite phones. Charges for calls made that are not included in the bundle (e.g. Calls to 13/1300 numbers, Directory Services and satellite phones) will be charged at listed TPG Call Rates by deducting usage charges from your Prepayment. The service is for residential consumers only and may not be used for commercial purposes.

**CSG Waiver:** The standard Monthly Charge and Setup pricing stated in the Information about Pricing section are based on new customers agreeing to waive the Customer Service Guarantee (CSG).

### Call Rates

Usage Type	Rates
Local Calls	Unlimited

18/1800 Calls	Free
19/1900 Calls	Not supported
Directory Assistance – 1223	\$1.10 per call
TPG 13 14 23	Free

**Network Boundary Point**

TPG will supply every customer with a Wi-Fi Modem to get connected with the FTTH service. Customers are required to pay a \$10 standard delivery fee, as outlined in the Pricing table. An Optical Network Terminal (ONT) is pre-installed at the customer’s premises. If an FTTH installer is required to attend your premises, you or an authorised person over the age of 18 must be home on the day of installation. We will advise you of the date and time of the installation appointment. You should receive the modem within 2-5 working days after it has been dispatched from our warehouse. TPG’s responsibility and demarcation point is the LAN1 port on the ONT. TPG is not responsible for any cabling beyond that point.

**Special Note**

TPG Voice Service is delivered using voice over Internet Protocol (VoIP). The Voice Service supports fax to national numbers in the Telstra, Optus, AAPT and Primus PSTN network. Fax to international numbers is not reliable and VoIP based fax is not supported. This plan does not support the Priority Assistance Scheme. The Voice Service does not support old dial up technology devices with built in modems such as EFTPOS, Back to Base Alarms and Foxtel Program purchase. These devices have been replaced by Internet Protocol (IP) enabled devices and many TPG customers are able to use EFTPOS, Back to Base alarms and Foxtel Program purchase through the internet provided that their devices are IP enabled. For further details on IP-enabled devices contact your device supplier. TPG Voice Service also does not support analogue modems, Priority Assistance Scheme, calls to 19/1900, 0500 numbers and Universal International Freephone Numbers (UIFN). The Voice Service requires a broadband connection and power to the Wi- Fi modem router supplied by TPG and to the network equipment in your building. If there is a broadband connection outage in your premises or your building due to power or other faults, the Voice Service will not work and you cannot make phone calls including “000” emergency calls.
